

ECLIPSE PRP

Clinically Superior

- AUTOLOGOUS - Minimal risk of allergic reaction
- EFFICIENT - Small blood volume needed
- SAFE - Preparation in small circuit
- SIMPLE - Eclipse kit ready to use
- EXCLUSIVE - Patented technology

Orlando Dermatology Inc introduces the combination of 2 innovations in Aesthetic Medicine to dramatically improve skin tone, elasticity and overall appearance, Eclipse PRP with Eclipse Miropen.

Eclipse PRP provides patients with the best enriched plasma with up to 8 biologically active growth factors and the Eclipse Micro pen is the latest technology in pain free collagen induction creating micro channels in the skin for product absorption.

How is the Procedure Performed?

1. Patient's skin concerns are evaluated by our trained Aesthetician.
2. One vial of blood is collected in the Eclipse PRP tube.
3. The Tube is placed in the Eclipse Centrifuge to create Platelet-Rich Plasma.
4. At the same time, the Aesthetician performs Microneedling on the area with the Micro Pen.
5. The PRP is smeared on the treated area.
6. Rosie Singleton PA. Will inject Eclipse PRP into the areas requiring treatment.
